START ON DOUBLE TRACK AT OGDEN

Harriman Engineers Begin the Survey of the Southern Pacific From
Here to Little Mountain—First of the Big Work Which Is
to Be Done By the Harriman System.

To begin the survey of the South-
ern Pacific railroad between Ogden
and Little Mountain, for the laying of
double track, a party of civil engi-
neers arrived in this city this morn-
ing from Salt Lake and are now en-
gaged with rod and line west of the
Ogden yards. This is the first survey
on the Salt Lake division of the
Southern Pacific in pursuance of the
\$75,000,000 double track project of the
Harriman system.

The distance from Ogden to Little
Mountain is about fourteen miles, the
station being situated at the edge of
Great Salt Lake and at the approach
of the Ogden-Lucan cut-off. The right-
of-way of the Southern Pacific between
this city and the lake shore is through
low level country and will require but

little grading to enlarge the roadbed
for the laying of a second track.

The engineers making the survey
are working under the instruction of
William Ashton, chief engineer of the
Oregon Short Line and the Southern
Pacific east of Sparta. Mr. Ashton
did not accompany the engineering
crew to this city, but will most likely
be here during the progress of the sur-
vey work. When the necessary data,
relative to the cost of doubling the
track between the two points, is com-
pleted the contract for the construc-
tion of the second track will be let.

It is likely that the actual construc-
tion work on this link, in the great
chain of double tracking, will be start-
ed within the next sixty days and will
be completed during the summer.

County Physician Pincock will be

called.

Dr. Pincock states that he is quite
certain that the ailment is measles in
a mild form. There are a number of
cases in the little town, but, from a
description of the symptoms given by
parents of families who have been
visited by the disease, it is reasonably
certain that it is measles. It has at-
tacked only children, so far, the doc-
tor says which is an indication that
it is not smallpox.

The county health department have
a real breaking out of smallpox, how-
ever, at the Vineyard Dairy, on south
Washington avenue and the bottling
works of the institution have been
closed, the entire premises fumigated
and quarantined. No milk will be taken
from the place until the quaran-
tine is lifted, and that which the com-
pany will market during quarantine
period will be taken from the dairy
proper, which is three miles away
from the infected district.

It is not known where the disease
originated. The first case was that of
a young man who had been working
in the bottling house for some time
past. Others who are afflicted with
the disease are members of a family
of Canfield, the mother and three of
the children being affected. Dr. Pin-
cock says that every possible pre-
caution against the spread of the
disease is being taken.

The mayor, to guard against the
spread of the disease, through the
bottling works has forbidden the use
of the plant and, temporarily, has al-
lowed the Vineyard Dairy, which is
located at a distance, to distribute
its milk without bottling.

The mayor's proclamation closing
the bottling works, follows:
"Whereas smallpox has broken out
in a family residing within 50 feet
of the bottling plant of the Vineyard
dairy on South Washington avenue,
Ogden, Utah, and
Whereas, the Vineyard dairy itself
is located several miles away from
said bottling plant,

"Therefore, the undersigned, by
virtue of the general welfare clause of
the laws of the State of Utah, as
mayor of Ogden City, and ex-officio
chairman of the Board of Health, do
hereby forbid the Vineyard dairy, or
any dairy or person, operating, or in
any way using said bottling plant un-
der other notice of the Board of
Health of Ogden City.

"Special permission is hereby granted
the Vineyard dairy, to sell milk in
Ogden City without first bottling
same, until the danger of smallpox
infection is removed.

(Signed.) WILLIAM GLAUMANN,
Mayor.

Ex-officio chairman of the Board of
Health."

HARRISVILLE STORE IS BURNED

A destructive fire occurred at Har-
risonville last evening, an entire building
and a stock of goods and merchandise
being consumed by the flames. The
origin of the fire is not known, the
premises taking fire after the time of
closing the store.

The property consisted of a frame
building of ten rooms, a part of which
was used by Parley Taylor as a store,
a stock of about \$1,150 in merchandise
being carried. The house belonged to
W. H. Taylor and is valued at about
\$2,000. There was no insurance on
the building, but a part of the stock of
merchandise was insured. The total
loss is estimated at about \$2,500.

Mr. Taylor closed his store at about
8 o'clock in the evening and went

home. At about 9:30 flames burst
from the building and, in a very short
time, it was completely enveloped
with fire. There was no chance to
save the building from utter destruc-
tion and the efforts of 75 men with
buckets of water were turned toward
protecting adjoining buildings from
the flames. The volunteer fire de-
partment of Five Points was called
to the fire.

Where Surgery Fails. Cutting Won't Remove the Cause of Piles.

Piles mean more than merely the
pain of the stubborn little tumors.
There is a condition inside that must
be dealt with. Cutting is usually fol-
lowed with later and worse attacks.
A permanent cure can only be made
by bettering the condition of the parts
and getting a free circulation of the
blood.

Hem-Roid cures all kinds of piles
by internal action right on the cause.

SIDEWALKS CAN BE USED

Under the provisions of the city or-
dinances, merchants are entitled to
two feet of sidewalk space abutting
their places of business for the display
of their wares. Recently the police
department ordered "all obstructions"
removed from the walks which caused
the taking away of displays of all de-
scriptions from in front of business
houses.

A complaint was made regarding the
order of the chief of police and he
brought the matter before the law de-
partment of the city government, with
the result that business men have
been allowed to use the two feet of
